Extra Emollient Night Cream®

AKA Satin Hands Softener which is the same product minus color & scent

This amazing product (one of our first) improves hydration and forms a protective shield to minimize moisture evaporation and increase moisture retention. Especially fabulous for hands, elbows, knees & feet. Also great for lips, after-shave protection (especially after shaving for a bathing suit), to avoid chafing in cold weather, and on any area of skin irritation or sensitivity.

For best results, apply on dampened skin or if after showering, don't completely dry off and apply, sealing in the moisture and decreasing the "greasy feel."

This Refreshing Toner tightens the appearance of pores while removing excess oil. Traces of dirt are wiped away—as are complexion-dulling dead skin cells —for a complete clean. Contains an extract of witch hazel, which has been used traditionally as an astringent, yet skin won't feel tight or dry. Helps control shine, leaving skin looking healthy and feeling refreshed.

Directions: *After cleansing the skin, apply a small amount to a cotton ball or pad, and smooth over face and neck, avoiding the eye area.*
